From the President's Desk

By Terry Babij

Quote: "When I entered photography professionally about 1930, I found that much of the severe discipline instilled in me in my music education carried over into my work. I hesitate to imagine what my photographs might have been without the insistence on excellence from my music teachers". Ansel Adams 1980.

There are both the discipline and visualization required before creating wow images. There will be great opportunities to increase your photo acuity at our upcoming NFRCC Spring Conference. There is a great list of speakers planned from Friday and Saturday and Sunday April 23-25. I met a long time member of a camera club in from Hamilton who shared his comments that the NFRCC conference is a must attend for him because there is nothing like in anywhere else in the area. This reinforced the great venue we are part of. A new feature this year will be an included networking lunch. The plan will be to have all the affiliated clubs have tables to show off what we do and talk our clubs up. In years gone by we had free time to go and find lunch on our own. Are there any suggestions for what we may want to use to attract new members?

Volunteers needed!! We have a few openings on our executive, 3 positions in particular are open. We need a Vice President, Newsletter Editor and someone or two to take over our house committee. This is a very important function and involves having refreshments prepared for our regular meetings.

We are also looking for volunteers who would like to help on other committees and learn the ropes for the future. Please see or contact anyone of our executive members if you are interested or know of someone.

We have our Members Night coming up March 1. This is where we ask members to bring in slide shows or presentations allowing members to show what you do creatively or what you may want to highlight. We will show these presentations on our video projector. Please bring programs on cd's or flash drives.

Cheers!

Terry
